### WORK EXPERIENCE

#### Technical Lead

PartsTrader Markets Limited · October 2022 - Now

Led the development for supplier-side projects for the largest online marketplace in the US for Parts Procurement

- Lead the technical design, architecture and development of solutions
- Manage the delivery of a cross-functional team to ensure they are meeting project deadlines
- Work with Product Managers, Designers, Architects, Security, Operations and other stakeholders to ensure team and company objectives are met.

#### Integration Developer/Consultant

Open Polytechnic · September 2021 - March 2022

Independent contractor brought in to replace their Lead Developer and help move to a modern CI/CD and Microservice based development workflow.

- Implementation of their first Continuous Integration pipeline to automatically lint, format and run security scans of code pushes.
- Upgraded their largest front-end web application from Angular 5 to 13.

#### Senior Developer

Kiwi Wealth · March 2019 - August 2020

Independent contractor leading development of a green-fields Customer Portal.

- On-schedule delivery of a React-based Customer Portal and component library.
- Worked with Architects to move back-end to a MuleSoft API Architecture.
- Worked with Product Managers to implement analytics and A/B testing to drive conversion rate improvement.

#### Lead Developer

Trade Me · March 2016 - March 2019

Line management, technology and delivery for Trade Me Insurance and LifeDirect.

- Led migration and consolidation of infrastructure to AWS.
- Drove continuous improvement of a high performing delivery team.
- Advocate for technical and delivery excellence in the Senior Leadership team.
